

# Clovis Kyndt

Software Engineer

## About

I'm Clovis, a senior software engineer who craft products and make nice things to automate process. I'm curious of all technologies related to web, mobile and data, user interaction and experience.

Apart from hi-tech field, I like running, swimming, hiking, and traveling. During my master study, I have had one year exchange experience in China, which finally interests me to explore more in the culture and learn Chinese.

## Stack

### Langages

Python

Golang

Typescript

Rust

### Data

PostgreSQL

MongoDB

Kafka

MS SQL

### Interests

Product development

Code quality

Architecture

Data visualization

### Framework

Vue

FastAPI

Flutter

### Operations

Kubernetes

AWS & Azure

Terraform

### Extra

Team management

Collaboration

Communication

## Work Experience

**Numberly** Software Engineer

March 2016 - Present | Paris, France

Built a suite of apps to drive operational excellence and performance in omnichannel campaigns.

- Worked on solutions using Python, Golang, Vue, SQL, Kafka
- Defined and developed quality processes according to the growth of the team's organization
- Manage authentication domain accountability, collaborate with clients to integrate their system
- Collaborate, deliver and communicate architecture solutions

**Altran** Software Engineer Intern  
October 2015 - March 2016 | Lille, France

Built a web application with AngularJS and ASP.NET to visualize crop plots, forecasting and suggesting countermeasures against fungicide risks according to various parameters and provide automated reporting to each user.

**Libertrip** Backend Developer Intern  
April 2014 - August 2014 | Lille, France

Support dev team on the main application written in Ruby on Rail. Gather a large inventory of hotels through multiple providers and provide an interface in AngularJS to interact with the inventory.

## Education

**MSc Computer Science** Epitech  
September 2011 - September 2016 | Paris, France

**MSc Computer Science (Exchange)** Beijing JiaoTong University  
September 2014 - July 2015 | Beijing, China

## Languages

French  
Native speaker

English  
Fluent, lived six months in UK

Chinese  
intermediate, lived a year in Beijing
